Introducing the Proposed Afro Collective Federal Credit Union Empowering You Through Community Banking!

What Is It?

The Afro Collective Federal Credit Union (ACFCU) is a proposed member-owned financial institution designed to serve you. Its formation is being sponsored by the Zim US Family Collective along with many members of our communities in the USA. The proposed ACFCU will provide affordable, accessible, and culturally-sensitive financial services tailored to help new immigrants thrive.

We are proud to announce that we have completed Phase 1 of the 3-phase chartering process with the National Credit Union Administration (NCUA). The NCUA has preliminarily approved our field of membership, which means we are now preparing our full charter application.

Who Will Be Eligible to Join?

Only members of the ZUFEC will be eligible to join the proposed credit union once it is chartered.

[Join now at: https://www.zufc.org/](https://www.zufc.org/)

Why It Matters

Many of us face challenges accessing traditional financial institutions. Our credit union will change that by offering:

- Micro-loans to support education, immigration, transportation, or emergencies
- Savings & checking accounts that build credit history
- Subsidized immigration legal support through vetted partners (e.g., Socks Law & Associates)
- Small business & car loans to support financial mobility
- Community reinvestment through dividends and development funds

How You Can Get Involved

- Become a ZUFEC member to qualify for future credit union membership
- Participate in our member surveys: www.zufc.org
- Spread the word to your family and friends
- Contribute financially to help meet the NCUA capital requirement

Your Benefits of Membership

- ✓ Build U.S. credit safely
- ✓ Avoid predatory lenders
- ✓ Access low-interest loans
- ✓ Receive community-specific financial support
- ✓ Be part of a growing Afro-global investment platform

Where Are We Now?

We've completed Phase 1:

- ✓ Proof of Concept approved by NCUA
- ✓ Field of Membership approved for ZUFEC
- ✓ Community support & survey initiatives underway

We are now moving into Phase 2 - Full Charter Application, which includes business planning, capital fundraising, and building digital infrastructure.

Together, we are building a future where immigrants control their financial destiny.
