Subject: Invitation to Partner in Building the Proposed Afro Collective Federal Credit Union (ACFCU)

To our esteemed Community Leaders

On behalf of the Zim US Family Collective, I am reaching out to invite your organization to partner with us in an exciting and historic initiative, the formation of the Proposed Afro Collective Federal Credit Union (ACFCU).

Our field of membership has been officially approved by the National Credit Union Administration (NCUA), confirming that Africans and friends of Africa across the United States are eligible to join this cooperative financial institution. The mission of the Afro Collective Federal Credit Union is to strengthen economic empowerment, entrepreneurship, and financial access for African communities living in the U.S.

We are currently conducting our **Future Member Survey through November 30, 2025**, to collect vital data that demonstrates the need and diversity of our membership base. We invite your members to participate in this short online survey and share it within your networks. Their voices will directly influence the programs, financial services, and products designed for our community.

At this stage, we are also raising start-up and operating funds to move from project to chartered credit union. We welcome your group's donations or in-kind sponsorships, which will go directly toward outreach, education, and readiness milestones required by the NCUA. While these contributions are not investments for financial return, every organization or individual donor will be recognized as a Founding Supporter of the Proposed Afro Collective Federal Credit Union helping to create a legacy of shared financial strength.

Your participation will help:

- Demonstrate community support to federal regulators.
- Ensure African voices are represented in shaping our financial future.
- Build collective pride in establishing a community-owned credit union.

To participate, please visit [insert website link] to complete the Future Member Survey and explore ways to support this important work. We would be honored to connect with your leadership team to discuss collaboration and community engagement opportunities. Together, we can build a financial institution that reflects our unity, culture, and collective vision for prosperity.

To learn more or confirm your support, please contact:

Dr. Angella Makaha-Lyo- Public Relations Officer
Proposed Afro Collective Federal Credit Union
Email: zufc.org@gmail.com

Thank you for your generosity, leadership, and commitment to economic equity.

Warm regards,

Farai Machina
