Subject: Invitation to Support the Formation of the Proposed Afro Collective Federal Credit Union (ACFCU)

To our prospective Patron,

On behalf of the Zim US Family Collective (ZUFC), we are proud to share news of an historic financial initiative, the Proposed Afro Collective Federal Credit Union (ACFCU) now advancing through the chartering process with the National Credit Union Administration (NCUA).

Our field of membership has been approved, confirming that Africans and friends of Africa across the United States can soon access an institution built specifically to serve their financial, business, and community development needs. The credit union's mission is to enable economic empowerment, entrepreneurship, and wealth creation within the African diaspora by providing culturally attuned, cooperative financial services.

We are now entering the capital formation and member engagement stage, where donations and in-kind sponsorships from community-minded businesses like yours are vital to the success of this movement.

Your donation is not an investment for financial return, as credit unions are not-for-profit, member-owned cooperatives regulated by the NCUA. However, as a donor or founding sponsor, your organization will be publicly recognized and memorialized as a Founding Supporter of the Afro Collective Federal Credit Union, joining a distinguished list of partners helping to build a lasting economic foundation for our communities. Your contribution will directly support:

- Community education and outreach to establish our first 1,000 founding members.
- Financial literacy and entrepreneurship programs for African-owned businesses.
- Operational readiness for NCUA charter approval and member onboarding systems.
- Visibility initiatives connecting diaspora communities to credit union resources.

Every contribution, whether financial, service-based, or in-kind (such as professional services, printing, marketing, or event space) helps us take one step closer to a fully chartered credit union serving thousands of African families and businesses nationwide.

Donor Acknowledgment (NCUA-Compliant)

All donors and sponsors will be acknowledged in accordance with NCUA regulatory guidance. Recognition may include mention on official proposed ACFCU communications, digital platforms, printed materials, and community events, with language identifying each contributor as a "Founding Supporter of the Proposed Afro Collective Federal Credit Union." This acknowledgment does not confer ownership, governance rights, or a financial interest in the credit union; it serves solely as a public expression of gratitude and recognition for your community support and leadership.

We invite your business to be recognized among our Founding Donors. Together, we can build a financial institution that ensures our communities are not just participants in the U.S. economy, but stakeholders and builders of it.

To learn more or confirm your support, please contact:
